

The RS-750 was designed for truck repair centers that need extra large capacity and rugged construction. Each RS-750 is equipped with a large, 30" diameter turntable that can carry a payload up to 1,000 lbs. With an inside compartment height of 54", it can handle anything from engine parts to tractor parts. Like all Ranger™ spray-wash cabinets, the RS-750 is built to last. We purposely constructed the cabinet and door with heavy-duty 12-gauge steel, and then we coated it with an industrial two-step primer and polyurethane finish. Durable construction combined with simple operating controls, stainless-steel nozzles, a gasket-free door and a large, 70gpm pump, makes the RS-750 tough enough to make light work out of heavy work.

Brand: Ranger
Model RS-750 Spray-Wash Cabinet

Overall Height	78" / 1981 mm
Inside Height	54" / 1372 mm
Inside Width	32" / 813 mm
Turntable Diameter	30" / 762 mm
Recommended Floor Space	44" x 43" / 1118 mm x 1092 mm
Load Capacity	1000 lbs. / 454 Kg.
Cycle Timer	0-60 minutes
Stainless-Steel Nozzles	22
Cabinet / Door Construction	Steel / 12 Gauge / .109 Thickness
Pump Output	75 psi @ 70 gpm
Motor (*)	2-HP / 220 Volt AC / 60 Hz / 1 Phase
Electric Heater	6 Kilowatts
Power Consumption / Pump Only	11 Amps @ 208 Volts / 10 Amps @ 230 Volts
Power Consumption / Pump On – Heater On	27 Amps @ 208 Volts / 25 Amps @ 230 Volts
Water Temperature	0° - 190° Fahrenheit
Large Drain Pipe	Standard
Heavy-Duty Rubber Casters	Standard
Tank Capacity	50 Gallons
Removable Tank Screen	Standard
Stainless Oil Skimmer	Standard
Friction-Drive Turntable System	Standard
Full Opening Octagonal Door	Standard
Gasket-Free Door	Standard
Small Parts Basket	Standard
Steam Vent	Optional
Stainless-Steel Handles	Standard
Removable Parts Tree	Standard
25 pounds Detergent	Standard
Shipping Weight	960 lbs. / 435 Kg.
