

Brand: Ranger
Model: RB-1ST
Description: Small Material Bender

This bench-top mini bender is perfect for bending small solid, round and flat steel bars or tubing. A must for muffler shops and specialty fabricators. Perfect for fabricating small diameter tube lines and a variety of brackets and hangers.

- Heavy, solid steel construction.
- Perfect for bending solid, round and flat steel bars or tubing.
- Includes bracket for installation on machinery or bench-top.
- Bends virtually all popular small tubing and square stock sizes.
- A must for muffler shops and specialty fabricators.
- Perfect for fabricating small diameter tube lines and a variety of brackets and hangers.
- Quick-change tooling. Multiple sizes are machined into dies eliminating the need for numerous die sets.
- Maximum Bending Depth: 90 degrees.
- Tubing Sizes: 1/4", 3/8", 1/2" and 5/8"
- Round Stock Sizes: 3/16", 1/4", 5/16", 3/8", 7/16" and 1/2"
- Flat Stock Sizes: 1/8" x 2-1/4", 3/16" x 1-1/2" and 1/4" x 1"
